DETAILED ACTION

1. Claims 1-24 have been presented for examination. Claims 1-24 have been amended in an amendment filed 10/01/2004. Claims 1-24 have been examined.

Drawings

2. The drawings, filed 10/01/2004, were received on 10/04/2004. These drawings are approved.

Allowable Subject Matter

3. Claims 1-24 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Claims 1-8 and 9-16 are drawn to a method and a machine readable medium having instructions for preventing theft of organization property, respectively. The closest prior art, Dustan et al., U.S. Patent No. 5,884,312 A, describes a similar method and machine readable medium. However, they do not explicitly teach nor suggest comparing identification information of an organization property collected with stored identification information of the organization property generating an authentication result. This distinct step explicitly recited in independent claims 1 and 9 renders claims 1-8 and 9-16, respectively, allowable.

Claims 17-24 are drawn to a theft prevention system. The closest prior art, Dustan et al., U.S. Patent No. 5,884,312 A, describes a similar system. However, they do not explicitly show nor motivate a theft monitor generating an authentication result by comparing a first stored identification information of an organization property with a second identification information of

the organization property. This particular feature incorporated into independent claim 17 renders claims 17-24 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
